

GOALS WORKSHEET

Please describe for us your desired outcome of the case

Please describe for us in what areas, if any, are you willing to compromise in negotiating a disposition of your case. Some common compromises include alcohol counseling, community service, charitable contributions and probation. Keep in mind that many of our clients do not wish to compromise at all, and will insist on being vindicated at trial. We wholeheartedly agree with a person's right to pursue a trial, so we do not ask for you to compromise if you want a trial.
